Computerized Job Cost Accounting — the "Smarter" way.

Smarter Systems Job Cost Accounting is easy to install and simple to run. It is a networked system that is affordable for any size shop.

Job Cost Accounting Process:

- Enter each job as it comes into shop
- Enter labor from time cards
- Enter material as used—through Purchasing or Material Entry function
- Print/view Work In Progress
- Summarize Jobs to prepare for invoicing
- Invoice jobs using comprehensive code system to create invoice stories with a few keystrokes automatically pull info from job records
- Post invoices to Accounts Receivable module
- Create End of Period reports to track costs and sales
- Save job and invoice information to History

Smarter Systems Benefits:

- Affordable, modular pricing
- Networking unlimited workstations, one reasonable price
- Intuitive windows and tabs arranged for ease of use and readability
- Customized invoice, PO, Sales Orders, Quotes, etc.
- Wide variety of customized reports to analyze costs, sales, labor, job code, tax & account info
- Unique "Story Code" system to create invoice stories simply by entering Work Codes to generate the story automatically
- Automatic, customizable adders or discounts based on specific info in job fields
- Reliable technical support quick response time and personalized service
